Revi Vreto

Frontend Developer · React.js & Laravel · Full-Stack Web Applications

Tirana, Albania · reviveto@gmail.com · linkedin.com/in/revi-vreto-19790624a
·

PROFESSIONAL SUMMARY

Frontend-focused full-stack developer with 4+ years of experience building production web applications for international clients across Albania, the Netherlands, and Italy. Specialised in React.js, Laravel, and Tailwind CSS, with a track record of delivering e-commerce platforms, real-time booking systems, and content management tools from concept to launch. Strong understanding of REST API integration, responsive UI architecture, and component-driven development. Comfortable working in cross-functional agile teams and remote-first environments. Actively targeting frontend or full-stack roles with European tech companies.

WORK EXPERIENCE

Software Developer · *Landmark Technologies — Tirana, Albania* May 2022 – August 2025

Project 1: E-commerce Platform (Netherlands client)

- Architected and delivered a full-stack e-commerce platform from scratch, serving as the sole frontend engineer on a Laravel + React.js stack for a Dutch supplement retailer
- Built a dynamic product catalogue and cart system with real-time updates, improving checkout flow and enabling seamless browsing-to-purchase experience
- Integrated payment APIs and order management backend, enabling end-to-end transaction processing with zero reported critical bugs post-launch
- Designed SEO-optimised, fully responsive UI components with Tailwind CSS — targeting Google Lighthouse performance scores above 85
- Coordinated with backend engineers via Jira agile sprints across a 3-person cross-functional team, maintaining full-stack consistency throughout the project lifecycle

Stack: ***React.js, Tailwind CSS, JavaScript (ES6+), PHP, Laravel, MySQL, REST API, Git, GitHub, Jira***

Project 2: Beach Reservation System (Albania)

- Designed and built a real-time booking interface for umbrella and sunbed reservations along the Albanian Riviera, handling concurrent availability checks and date-based scheduling
- Developed backend reservation logic in Laravel, including conflict detection, payment confirmation flows, and automated booking confirmation
- Delivered a mobile-first UI with Tailwind CSS, ensuring high usability for seasonal tourism users across all device types

Stack: ***React.js, Laravel, Axios, MySQL, REST API, PHP, Git***

Project 3: Internal User & Content Management Dashboard

- Built a CRUD-based admin dashboard for managing users, posts, and comments, applying modular React component architecture for long-term scalability
- Integrated Laravel authentication and role-based access control, ensuring secure, permission-gated admin operations

Stack: ***React.js, Tailwind CSS, JavaScript, PHP, Laravel, MySQL, REST API, Git***

Frontend Developer · *W2020 SHPK — Tirana, Albania* Oct 2021 – Apr 2022

Project: Food Delivery Management System (Italy)

- Contributed to a multi-platform food delivery system deployed to App Store and Google Play, serving restaurant staff and end customers across Italy
- Developed modular, pixel-accurate frontend components from Figma designs, maintaining consistent UI/UX across a complex multi-role interface
- Integrated a push notification system for real-time order tracking and kitchen-to-customer communication
- Participated in the full product delivery cycle: requirements analysis → component development → QA testing → App Store / Google Play submission

Stack: ***React.js, Laravel, PHP, JavaScript, MySQL, REST API, Push Notifications, Android, Git***

Web Development Intern · *Albania Business Partner — Tirana, Albania* **Sep 2021 – Oct 2021**

- Assisted senior developers in building responsive layouts using HTML5, CSS3, and Bootstrap
- Gained hands-on experience with Git version control, Agile workflow, and professional code review practices

Stack: ***HTML5, CSS3, Bootstrap, JavaScript, jQuery, Git, GitHub***

TECHNICAL SKILLS

Frontend
React.js, JavaScript (ES6+), HTML5, CSS3
Tailwind CSS, Bootstrap, jQuery
Responsive Design, SEO optimisation
Figma (design implementation)

Backend & Database
PHP, Laravel, MVC Architecture
REST API Development
MySQL, MongoDB, SQL
Node.js (basic), Express.js (familiar)

Tools & Workflow
Git, GitHub, GitHub Actions
Jira, Agile / Scrum
Postman, VS Code, Composer, npm
cPanel, Linux Terminal

Testing & Other
Jest, Unit Testing, Postman
Docker (familiar), AWS basics
Next.js (familiar), Webpack / Vite
JSON, AJAX, API integration
